June 21, 1941

The H. D. Garwood Seed Co.
Rocky Ford, Colorado

Gentlemen:

We want to compliment you on your selection of seed in the Resistant 45's you sold us for this year's crop. It really has been and is a pleasure to be harvesting such fine melons.

We are again going to be interested in seed of the highest type for our next season's crop, and it is the intention of the writer to come up there during the harvest season. We are looking for a little more vine growth (of which, your's seemed the best here this season) and fully netted. We noticed that in your selection this year you had a prevailing number of melons that had netted over the ribbons pretty well. We like a cantaloupe with good vine foliage, good setting, well netted, well shaped - a little to the oblong - and deep meat, and naturally uniform to these qualities in the field.

We don't mind paying a little extra for extra fine selection and sincerely hope that you will have something extra fine, as we are not cutting a seed this season.

Passing along our kindest respects, we are

Very sincerely yours

L. M. McLaren Prod. Inc.

By-

The McLaren firm is one of the largest cantaloupe growers in the west

To the Friends of **THE GARWOOD SEED COMPANY**

It was a pleasure for me to have so many of our customers come to Rocky Ford this past summer. I enjoyed talking to you and showing you our crops, and the Arkansas Valley of Colorado. As I told some of you this year, I was mighty sorry that our weather had to be so "unusual" just when we wanted you to have a good impression of our wonderful valley. The weather was, like the small boy, acting up when visitors were around. Normally our growing conditions are ideal, so we hope you will come back next summer and see us with good crops.

Our entire season went "hay-wire" this past year. We started out with a cold, wet, backward spring which delayed our planting. When we did get the seed in the ground much of it rotted. We had to do considerable replanting. From the latter part of June we had to continually fight insects, heavy rains, hailstorms and then an early frost came on us September 8th. We were about a month late

in starting our harvesting. The result was that many seed fields were abandoned, other fields gave us but small yields of seed. Now that our stocks are in the warehouse, we find that we are going to be short on many items. This will mean that we will not have the seed left to fill many late orders. My advice is that you place your seed orders as early as possible, the seed can be shipped whenever you desire. Many of our large seed users ordered their seed when they were here in August. They saw our fields and ordered their stocks from the individual fields. They liked our stocks and wanted to be sure of their seed supply for 1942 planting. Adverse weather conditions have affected most of the seed growing sections of the U. S. and you will find that many kinds of seeds will be hard to get at planting time.

We have made our usual careful selections and have the same high quality, high germinating seed that we have always produced. The only difference is that we will not have our usual amount of seed to take care of your orders. Prices will, naturally, be higher on some items. Many of our boys are in training camps, along with your own boys, and this has made it harder to get our field work done. We have had to pay more money for our hand-cutting, threshing and other work. With much smaller yields per acre it has cost more per pound to harvest a field of seed. We have done our very best for you. Our seed is of the same high quality that we have always prided ourselves upon. Our methods have not, and will not, change. The same careful attention to every detail will be maintained regardless of the cost. The only thing that we cannot control, in our seed growing, is the weather conditions—as you well know in your own operations. To put it very mildly, it was a "most unusual season" for seed growing.

I hope that you will have a prosperous season in 1942 and that you will come to Rocky Ford next Summer and see our crops.

Yours for Better Crops,

Fred. S. Gueff

Owner

Pumpkin

**EARLY
HARDY
PIE PUMPKIN**

NEW!

NEW EARLY CHEYENNE PUMPKIN A new variety derived from New England Pie by the U.S. D.A Station at Cheyenne, Wyoming, it has proven to be from two to three weeks earlier and a heavier yielder. In check trials Early Cheyenne averaged 9 mature fruits against 6 for New England Pie. Fruits are smaller than New England Pie, just right size for one pie, measuring 5 to 7 inches across by 2 to 4 inches thick. Fine color and flavor with no disagreeable fibre. Stands adverse weather conditions, especially cold, and is resistant to many of the common diseases that attack most varieties. We recommend the Early Cheyenne to northern growers or to anyone desiring a small, family size pie pumpkin of excellent quality.

Prices Prepaid: Oz. 25c; ¼ lb. 65c; 1 lb. \$2.00; 5 lbs. \$9.00; 10 lbs. \$17.00.

NEW SCHOON'S HARDSHELL

Muskmelon
NEW!

*Don't fail
to try it*

NEW SCHOON'S HARDSHELL MUSKMELON A new and exceptionally fine flavored muskmelon of the Bender type, maturing in 90 days. Especially valuable for its extra hard shell as it will stand up better than most muskmelons for shipping. Of a large size, weighing 6 to 7 pounds and measuring 8 by 7 inches, deeply ribbed it is covered, except on its distinct stripes, with a hard, greyish-yellow, rope like netting. When mature the rind is a beautiful golden-yellow. The flesh is medium grained, thick, a rich red-salmon color and of excellent flavor.

Prices Prepaid: Oz. 20c; ¼ lb. 55c; 1 lb. \$1.75; 5 lbs. \$7.75; 10 lbs. \$14.00.

Cantaloupes

**NEW
IDEAL**

NEW IDEAL 85 days. We originated this very select strain several years ago by crossing our Perfected Perfecto with an excellent strain of Hale's Best. The result is an early cantaloupe with the qualities of the later Perfected Perfecto. We have continued our work toward improving this strain until, today we have an Ideal cantaloupe for the shipper or market grower. While we class this melon with the Hale's Best in time of maturity, we have found ripe melons in our fields 80 days from time of planting. Many large growers tell us that the New Ideal is the earliest, the most uniform and the best quality cantaloupe of its class.

The vines of the New Ideal are of medium growth but very vigorous and healthy. A very prolific producer with the first set unusually heavy. In size these melons run mostly jumbo 12's to the flat crate. They are very uniform in size and oval in shape, covered with a solid, well developed netting. The flesh is similar to the Perfected Perfecto; small seed cavity, a very deep orange-salmon color, thick meat, very firm and fine grained.

We strongly recommend that you give this fine cantaloupe a trial. We feel sure that you will be well pleased with it for market or home use.

Prices Postpaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

*An Improved Hale's
Best-Perfected Perfecto Cross*

Cantaloupes

POWDERY MILDEW

While the Powdery Mildew Resistant Cantaloupe strains were developed primarily to serve the Imperial Valley in fighting the mildew, on account of their excellent qualities, they are displacing other varieties in many cantaloupe shipping sections. The cantaloupe growers of Arizona, Colorado, New Mexico and much of Texas are fast turning to these strains, although they are not affected with mildew in those states.

One reason for this popularity is the way the cantaloupe will stand long distance shipping. Picked on a full slip in California, they arrive on the Eastern Seaboard markets in prime eating condition.

Many strains have been developed but I have selected those which have a distinct place in the trade. I grow and list the No. 1 and No. 8 for those growers wanting an extra large size melon. The No. 50 and No. 50-13 are for growers wanting a somewhat smaller size. The No. 45 and D-2 are the standard sizes, the varieties that the California and Arizona growers use for main crop.

Mildew Resistant No. 45 Cantaloupe

NEW

RESISTANT D-2 88 days. This new Mildew Resistant strain was developed from the No. 45, for use in the Imperial

Valley. It is immune to some forms of mildew that had attacked other varieties. The D-2 is a heavy yielder and produces melons slightly larger than the No. 45. The net is heavier and rougher than most of the other strains. The flesh is deep salmon, the eating and shipping qualities are excellent—as are all other mildew resistant strains.

Prices Prepaid: Oz. 20c; ¼ lb. 55c; ½ lb. 90c; 1 lb. \$1.75; 2 lbs. \$3.25; 5 lbs. \$7.75; 10 lbs. \$14.00.

RESISTANT NO. 45 88 days. The standard shipping melon, somewhat oblong, well netted and very solid fleshed. The flesh color is deep salmon, sweet flavored and firmer than most other cantaloupes. The seed cavity is compact and well filled, making it hold up well in shipping. Picked on a full slip it will carry for long distances. Size 6½ by 6 inches they pack a uniform 12 crate.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

RESISTANT MELONS

Cantaloupes

RESISTANT NO. 1 88 days. A very large melon, 7 by 6½ inches, well netted and oval in shape. The salmon flesh is thick and sweet with a small, compact seed cavity. Vines are vigorous and prolific yielders. Matures a little later than the Hale's Best varieties. Packs 9 to the jumbo flat crate. Fine for market.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

RESISTANT NO. 8 88 days. This melon is popular everywhere because of its size, prolificness and hardiness. The quality is good and will stand rough shipping. Having a fine exterior appearance the No. 8 does not run uniform in size, a feature that recommends it to the market grower. Well netted with thick, sweet, firm salmon flesh and a small seed cavity. The No. 8 will produce you a heavy crop of large, quality melons; average 7 by 6½ inches in size.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

*Mildew
Resistant
No. 8
Cantaloupe*

RESISTANT NO. 50 88 days. This variety runs rather oblong in shape and will vary in size, though they will pack a strong 12 jumbo. Vines are very vigorous and heavy yielders. Heavily netted they show some stripe. Flesh good salmon color, firm texture with medium seed cavity. A fine shipping variety.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

RESISTANT NO. 50-13 88 days. A selection from the No. 50 this melon will run more uniform in size, packing 15 to the standard flat. Having a heavy net and prominent stripe they are salmon fleshed, very firm and of excellent flavor. Heavy producers; this variety is a fine melon for any market.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

Cantaloupes

HALE'S BEST CANTALOUPE

When the HALE'S BEST CANTALOUPE was introduced, back in 1924, it gained instant popularity—which it still holds. The original Hale's Best produced some very large, as well as medium size melons. By careful selection and breeding we have produced three outstanding strains which, I am sure, will fill your every need. We describe below our NEW EARLY, which is a Jumbo strain; our No. 36 is a Standard size melon while the No. 936 is the cream of Hale's Best strains for size, uniformity and packing.

*The 3 Outstanding
Hale's Best
Cantaloupes*

NEW EARLY HALE'S BEST Our Improved Jumbo Strain, 85 days. This Jumbo selection is so large that they are more adapted for roadside sale than for crating. They will average about $4\frac{1}{2}$ pounds and would pack 9 or less to the jumbo flat crate. A very uniform type having a distinct stripe running from the stem to blossom end. Measuring $6\frac{1}{2}$ by 6 inches they are well netted between the distinct sutures, with practically no ribs. The flesh is thick, deep salmon, sweet flavored and of the finest eating qualities.

Prices Prepaid: Oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

HALE'S BEST NO. 36 85 days. Since introduction in 1931 this variety has continued to be one of the leading strains for the market grower. So uniform in size and shape, measuring $5\frac{1}{2}$ by 6 inches and packing 12 to the jumbo flat crate, there is no losses from off sizes. Very solidly netted, no ribs, and little if any sutures. The flesh is deep, very fine grained, rich, spicy and a deep salmon color. An excellent, uniform strain of Hale's Best for any requirement.

Prices Prepaid: Oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

HALE'S BEST NO. 936 85 days. Selected from the No. 36 this melon is the most uniform of all the Hale's Best strains. While many firms list this variety under various names I have yet to see a better Hale's Best strain than our No. 936. Our planting stocks are taken from the very earliest of the crown-set melons, from heavy producing plants. The melons are then selected for their uniformity in size, shape, netting and interior qualities. In this way I am able to keep this strain up to the standard that I have set for a PERFECT HALE'S BEST. Slightly larger than the No. 36 the No. 936 carried a perfect net; has no sectors and runs to even Jumbo sizes. The vines are very hardy and vigorous, producing a crop of perfectly uniform melons. Measuring 6 by $5\frac{1}{2}$ inches they will pack 12 melons to the jumbo crate. The flesh is a rich salmon, very thick and with a very small seed cavity. One of the principal characteristics of the No. 936 is its uniformity, and high percentage of salable melons.

Prices Prepaid: Oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

Muskmelon

Market only Quality
Melons . . . throw culls
to the hogs

QUEEN OF COLORADO 88 days. All-America trials gave this melon Honorable Mention Award in 1939. A development from Pride of Wisconsin it is mostly oval in shape, weighs about 5 pounds and measures 7 by 6½ inches. The rind is very hard, pearl-gray in color, with a most distinctive, coarse, loosely laced grey netting and is slightly ribbed. The flesh is very thick and solid, of a bright orange color with a small seed cavity; of superior eating qualities. A good shipper for short distances it is fast becoming a favorite in the East and Central states. You will make no mistake in trying this fine addition to the Muskmelon family, your trade will enjoy the luscious flavor. Our seed is hand-cut from superior melons.

Prices Prepaid: Oz. 20c; ¼ lb. 65c; ½ lb. \$1.20; 1 lb. \$2.00; 2 lbs. \$3.75; 5 lbs. \$8.75; 10 lbs. \$16.00.

*Our Strain of
Pride of Wisconsin
is like this*

PRIDE OF WISCONSIN 85 days. This fine muskmelon was developed from a cross of Honey Rock and Hearts of Gold. It combines the tough, hard rind of the Honey Rock with the depth of flesh of Hearts of Gold. Will stand shipping moderate distances. The rind is hard, slate colored and covered with a very distinct coarse, irregular, loosely laced grey netting. The flesh is very thick, firm, orange colored and of wonderful quality. The seed cavity is small and the seeds closely packed. Weighing about 4¾ pounds it will measure 6½ by 6 inches.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

Cantaloupes, Muskmelons

ARIZONA NUGGET 92 days. A very fine quality cantaloupe which was originated at Yuma, Arizona, for shipment to Eastern markets. Vines are very vigorous and productive. The melons are heavily netted but show a slight rib. Flesh is a deep salmon color, fine grained, very firm and with a small seed cavity. Measuring 5½ by 5 inches they pack 12 to 15 to the flat crate.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

BENDER'S SURPRISE 90 days. Our own special strain of this very popular muskmelon. The fruits are oblong with full rounded ends, measuring 8 by 7 inches and weighing about 7 pounds. The skin is hard, greyish-yellow in color, distinctly ribbed and with a coarse netting. The flesh is deep, bright salmon and of a delicious flavor.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

DELICIOUS 83 days. Similar to the Bender's Surprise muskmelon but much earlier and richer flavored. Fruits 5½ pounds, 6½ by 6 inches; coarse netting and prominent ribs. Rind is hard and creamy-green at maturity. Flesh is thick, bright salmon colored, very sweet and a delicious flavor.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

EDEN GEM or ROCKY FORD GREEN FLESH 92 days. This is the original Rocky Ford cantaloupe, slightly oblong, solidly netted, very firm and highly resistant to rust. Flesh is green, fine grained and with an excellent, distinctive flavor. Many claim this is the finest eating cantaloupe grown.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

GOLDEN CHAMPLAIN 80 days. The earliest of the orange fleshed muskmelons. Fruits are round and slightly flattened at the ends; weight about 4 pounds and measure about 6 inches from end to end, 5½ inches in diameter. They are lightly netted with shallow ribs. Flesh is medium thick, salmon-orange in color, very juicy and with a distinct musky flavor.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

*Our
Improved
Hearts
of
Gold*

HEARTS OF GOLD IMPROVED 90 days. A mighty fine cantaloupe and a great favorite in Indiana and Michigan market sections. The outstanding features of this cantaloupe is its beautiful appearance and wonderful eating qualities. The flesh is deep golden color, fine flavor, sweet, spicy and fine grained. Oblong in shape, well netted except for a narrow stripe between shallow ribs. Packs 12 to the jumbo flat and will ship moderate distances.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

It Pays to buy Only the BEST Seeds . . .

Buy H. D. Garwood Seed and be SAFE

PEARL PINK MEAT or ABBOTT'S PEARL 95 days. Flesh is a rich salmon of excellent flavor. The pearl-gray rind is tough and hard, making a good shipper. Packs 12 to the jumbo flat crate. Much used in Delaware and Maryland.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

PERFECTO PEARL 90 days. This cantaloupe is a cross of Pearl Pink Meat and Perfected Perfecto, having the good points of both parents. Ranges in size from standards to jumbos, well netted but shows some stripe. Flesh is thick, rich salmon color of delicious flavor. A good shipper.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

*A fine
basket of Our
Perfected Perfecto*

PERFECTED PERFECTO 90 days. Since we introduced this high quality melon, back in 1933, we have continued to keep it the finest eating melon on the market. While later than some other melons it cannot be surpassed for the late market. It should be spaced farther apart than most cantaloupes on account of its extra strong, vigorous growth. It is highly resistant to disease and rust. The Perfected Perfecto is nearly round in shape, measuring 6 by 5½ inches, and packs 12 to 15 to the jumbo flat crate. The netting is very fine and closely laced, entirely covering the melon. Flesh is very thick, rich orange-salmon in color and edible to the rind. The seed cavity is very small and the seeds are tightly packed. A wonderful cantaloupe for local or long distance shipping.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

Cantaloupes, Muskmelons

HONEY ROCK or SUGAR ROCK 85 days. Winner of a Gold Medal, All-America Selections, in 1933. This melon continues to be a favorite in the central states. A good shipper for short distances. Rind is tough, hard and brittle, with a very coarse, irregular net; grey-green in color it turns a golden-yellow when ripe. Flesh is medium thick, deep salmon, juicy and of excellent flavor. Medium in size it weighs about 3½ pounds and measures 6 by 5½ inches.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

HOOSIER KING 90 days. A fine roadside muskmelon weighing about 7 pounds and measuring 8 by 7 inches. Slightly oblong with full rounded ends; skin grey turning to golden yellow when mature. Flesh is thick, salmon color, good quality.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

IMPERIAL GEM 90 days. A green fleshed cantaloupe with the fine flavor of the original Rocky Ford melon. The flesh is thick and firm; vines are vigorous, very prolific and rust resistant. Packs 15 to the standard flat crate.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

IMPROVED PINK MEAT or BURRELL GEM 98 days. Fruits are oval, 6 by 4½ inches, well developed closely laced netting, unnetted sutures between the ribs. Flesh deep orange-salmon, thick, very fine grained, spicy and sweet. Packs 12 to the jumbo flat crate. A very fine cantaloupe.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

101
Special
makes this
Perfect
Pack

101 SPECIAL 90 days. A pink meated No. 10-25 this cantaloupe is very uniform in shape, all standards in size and packing 15 to the crate. Of the Rocky Ford type, it is covered with a closely laced grey netting. The flesh is sweet, firm and of a deep pink-salmon color. A fine shipper.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

White Melons

The Aristocrats of the Cantaloupes

So many White Skinned melons, of the Honeydew type, have been introduced the past few years that shippers have designated this class as "White Melons".

*Golden Globe
the finest White
Melon
grown*

GOLDEN GLOBE 92 days. The finest of the white-skinned, orange fleshed melons. Nearly round in shape with a thin, tough rind covered with a slight, lightly traced netting. When fully ripe the rind is a beautiful golden color. The seed cavity is small, and the thick flesh is orange colored and edible to the rind. Vines are hardy and vigorous, yielding heavily over a long period. Picked on a full slip they will stand up several days, makes a good shipper. Excellent flavored it commands premium prices and repeat sales.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

WEAVER SPECIAL or IMPERIAL SPECIAL 92 days. A white skin melon with a golden tint when ripe. Globe in shape, slightly netted, packs 12 to the flat crate. Flesh is a rich orange color with small seed cavity. Fine flavored. A good shipper and will stand several days after being picked on a full slip.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

HONEY BALL—GREEN FLESH 105 days. Like the Honeydew, from which it was derived, it has a white rind and light green flesh but carries a good netting. The flesh is emerald green, thick, very sweet and juicy. Keeping and shipping qualities are excellent, one of the main shipping varieties. Our strain is very uniform, producing well netted melons about 5 inches in diameter.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

HONEY BALL—SALMON TINT 95 days. Globe in shape with creamy colored, lightly netted rind. Flesh is rich salmon-red of fine flavor. Will stand several days when picked on full slip. California growers ship many carloads East.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

MEL-O-DEW or HONEYMEL 95 days. A Honeydew-Cantaloupe cross it is mostly oval in shape. The golden colored rind is covered with a pearl-grey netting which gives it a very attractive appearance. Flesh emerald-green, rich, spicy flavor.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

White Melons

The Sweetest
of all Melons

Our Green Fleshed Honeydew

HONEY DEW—GREEN FLESH (Antibes) 112 days. The standard commercial Honeydew. Of African origin it requires a long growing season. Our strain is the smooth globe type preferred by the leading shippers. Measuring $7\frac{1}{2}$ by 7 inches the rind is hard and smooth with no netting or warts. Rind is creamy-white which changes to a slight golden tint when ripe. Flesh is light emerald-green, very thick, juicy and sweet.

Prices Prepaid: Oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

HONEY DEW—MILDEW RESISTANT NO. 60 110 days. Recommended for districts where the powdery mildew is prevalent. Very uniform in size and shape. Rind is hard and smooth, without netting, creamy-white in color with a slight golden tint when mature. Flesh light emerald-green, thick, juicy and sweet.

Prices Prepaid: Oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

HONEY DEW—BABY or DWARF 112 days. Introduced by us to supply the demand for a small size Honeydew. Very uniform in size and shape it is midway between the Honeydew and the Honeyball. Measuring $6\frac{1}{4}$ by 6 inches, it packs 12 to the crate and is much in demand by California growers. The flesh is light emerald-green, thick, juicy and very sweet. Rind is hard and smooth with no netting. Creamy-white in color it changes to a slight golden tint when mature.

Prices Prepaid: Oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

GOLDEN HONEYMOON or GOLDEN RIND HONEYDEW

92 days. Earlier than the regular Honeydew it withstands heat better. Flesh is very thick, juicy, sweet and of a light emerald-green color; very similar to the regular Honeydew. The rind turns golden-yellow when about two-thirds grown, making a very attractive appearance. Of excellent quality.

Prices Prepaid: Oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

Dixie Queen is a Delicious Melon

DIXIE QUEEN 85 days. A very attractive, large, round melon which has made a hit wherever it has been grown. Its striking appearance commands instant attention, its flavor and quality bring repeat business from consumers. The fruits are almost round, measuring 15 by 12½ inches; rind is tough, a light green color veined with darker green. The flesh is a rich scarlet, stringless and very sweet. The seeds are small and white. A good yielder and shipper. Ordinarily weighs about 35 pounds but it does attain as high as 50 pounds. If you don't know the Dixie Queen better try a few now.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

EARLY KANSAS 80 days. The earliest large, round shipping melon and very popular in the Middle West. It is also called "Indiana Red" and many other names. Usual size is 15 by 13 inches, weight 30 to 40 pounds, though it will attain as high as 60 pounds. The rind is tough, light green with broad bands of wavy stripes. Flesh is bright red, fine texture and excellent quality. Seeds are red, changing to buff when dried.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

FLORIDA GIANT or CANNONBALL 92 days. Very popular in the South as a long distance shipper. Vines are vigorous and very productive. Fruits are dark green and nearly round. Flesh red, firm and of excellent quality. Seeds are mottled dark brown.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

HAWKESBURY or GRAY SHIPPER 85 days. Wilt Resistant. The best of the long gray melons, of the Irish Gray type. Fruits are large, weighing 35 to 40 pounds; long and sloping toward either end, light grey with fine veining of green. The hard, tough rind makes this melon a wonderful shipper. Flesh is firm, stringless, bright red and good quality. Seeds are brownish black.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

KLONDIKE—BLACK SEEDED 80 days. Originated in California, where it is known as the "University Strain" and is very popular as a market sort. It weighs 18 to 25 pounds, measures 14 by 10 inches. Fruits are oblong with shallow ribs running lengthwise, tapers toward the blossom end. The color is a pure green. Flesh is a blood red to the rind, sweet and melting. Seeds are small and black.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

KLONDIKE-STRIPED 80 days. Flesh a deep red, sweet, stringless and melting. Rind is light green, prominently striped with darker green; thin, hard and tough. Makes a wonderful shipper or market sort. Weighing about 25 pounds it measures 14 by 10 inches. Seeds small, varying from white to black in color.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

KLONDIKE R-7 80 days. A Fusarium Wilt Resistant green Klondike developed by the California College of Agriculture; retaining all the desirable Klondike qualities. The vines are vigorous and prolific. The rind is thin but tougher than the original strains. Flesh solid, deep red, fine texture with high sugar content. Weighs 25 pounds and measures 14 by 10 inches. Seeds are small and vary in color from tan to black.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 80c; 1 lb. \$1.50; 2 lbs. \$2.80; 5 lbs. \$6.50; 10 lbs. \$12.00.

*Kleckley
Sweet in
Our Field*

KLECKLEY SWEET 85 days. Very popular for home market or short hauling, will stand shipment up to 200 miles but not recommended for longer distances. Melons are oblong, very dark green and about the same diameter at both ends. Rind is thin but not as brittle as some strains. Flesh light red, very sweet and melting. Weighs 35 pounds, measures 24 by 12 inches. Seeds white and few in number.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

KLECKLEY NO. 6 88 days. A Fusarium Wilt Resistant variety of the same type as the Kleckley Sweet and with as high a sugar content. Vines are vigorous and prolific. Rind is thin but tough. Seeds are white.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

WONDERMELON 85 days. A greatly improved strain of Kleckley Sweet and of larger size. This melon is long and cylindrical, 28 by 14 inches, weight about 40 pounds, very dark green in color with creases running lengthwise. Rind is hard and will carry well for some distance. Flesh bright red, very solid and stringless, fine flavored with few white seeds.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

Watermelons

Everyone likes
good watermelons

STONE MOUNTAIN or DIXIE BELL 90 days. Very popular with Southern shippers. Fruits are large, often weighing 50 pounds, broad oval, almost round, they measure 17 by 14 inches, with blocky ends. Rind is grey-green with distinct veinings, hard and tough. Flesh is bright crimson, crisp and sweet. The seeds are white, tipped with black.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

Popular with the Southern Shipper

CUT-RED WATSON 90 days. Markets calling for a really good, large melon of the Watson type will find it here. Without a white heart the flesh is very fine grained, deep red, entirely stringless and very sweet. The rind is tough and of a darker green than the older strains of Tom Watson. Weighing 40 pounds, measuring about 22 by 12 inches. The seeds are brown.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

WINTER QUEEN—BLACK SEEDED 90 days. Grown largely for winter use. The fruits are small, nearly round, greenish-white with faint, irregular pale green stripes. Rind is tough and rubbery. Flesh is deep red, crisp, firm and of good quality. Weight 14 pounds, measuring 9½ by 9 inches. Seeds are small and black. A good keeper and shipper.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

WINTER QUEEN—GREY SEEDED 85 days. This melon is earlier and somewhat larger than the Black Seeded variety, weighing 16 pounds it measures about 12 by 11½ inches. The fruits are round with tough, rubbery rind; light cream in color with faint, irregular stripes of light green. Flesh is deep red, very sweet and of excellent quality. Seeds are greyish-green in color. A good keeper and shipper it is much used by Utah shippers.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

Cucumbers

Slicing and
Pickling

The A. & C. is a Perfect Market Cucumber

A. & C. or ACE 65 days. A fine dark green slicing variety that has become very popular with the shippers. Its outstanding value is the very dark green color, which it holds longer than most other varieties. The dark color is carried well around the blossom end of the fruits, the light stripes being almost entirely eliminated. Fruits average about 10 inches long by $2\frac{1}{4}$ inches in diameter; straight and cylindrical. Vines robust and heavy yielders.

Prices Prepaid: Oz. 25c; $\frac{1}{4}$ lb. 80c; $\frac{1}{2}$ lb. \$1.40; 1 lb. \$2.50; 2 lbs. \$4.75; 5 lbs. \$11.00; 10 lbs. \$20.00.

CHICAGO PICKLING 55 days. A valuable black spined, medium long pickling sort. The color is medium green, $6\frac{1}{2}$ to 7 inches long, $2\frac{1}{2}$ to $2\frac{3}{4}$ inches thick. Tapers slightly toward the blossom end.

Prices Prepaid: Oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

CLARK'S SPECIAL 60 days. Extensively used by shippers in the South. A dark green color that holds firm for long distance shipping. Fruits are slender, $8\frac{1}{2}$ to 10 inches long by $2\frac{1}{2}$ inches in diameter. Tapers slightly at both ends.

Prices Prepaid: Oz. 15c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

COLORADO 65 days. This variety is a real moneymaker for the market grower. A very dark green color carried well around the blossom end and not inclined to have light color stripes. Fruits about 10 inches long, straight and symmetrical. Vines are vigorous and heavy yielders. A perfect packer and shipper.

Prices Prepaid: Oz. 25c; $\frac{1}{4}$ lb. 80c; $\frac{1}{2}$ lb. \$1.40; 1 lb. \$2.50; 2 lbs. \$4.75; 5 lbs. \$11.00; 10 lbs. \$20.00.

EARLIEST OF ALL 62 days. Very extensively used as a pickling sort in the South. As a slicer it is unexcelled. Dark green colored, very uniform and square ended. About 7 inches long it is a fine early market sort.

Prices Prepaid: Oz. 20c; $\frac{1}{4}$ lb. 55c; $\frac{1}{2}$ lb. 90c; 1 lb. \$1.75; 2 lbs. \$3.25; 5 lbs. \$7.75; 10 lbs. \$14.00.

EARLY FORTUNE IMPROVED 60 days. Our stock of this variety is much more uniform and darker than the older strains. Fruits dark green, tapering abruptly at the stem end, 8 to 9 inches long by $2\frac{1}{2}$ inches in diameter. Used very extensively as a market sort in Texas.

Prices Prepaid: Oz. 20c; $\frac{1}{4}$ lb. 55c; $\frac{1}{2}$ lb. 90c; 1 lb. \$1.75; 2 lbs. \$3.25; 5 lbs. \$7.75; 10 lbs. \$14.00.

Cucumbers

Slicing and Pickling

LONGFELLOW 65 days. Well named on account of its long, slender, handsome appearance. Dark green, straight, uniform, 12 to 14 inches long by 2½ inches in diameter. Brings top market price. Also used for hothouse growing.

Prices Prepaid: Oz. 20c; ¼ lb. 55c; ½ lb. 90c; 1 lb. \$1.75; 2 lbs. \$3.25; 5 lbs. \$7.75; 10 lbs. \$14.00.

LONG GREEN IMPROVED 65 days. An old favorite; long, slender, somewhat warted and tapering toward the stem end; 12 to 14 inches long by 3 inches in diameter. A very dark green which holds up well on the market. Black spined.

Prices Prepaid: Oz. 25c; ¼ lb. 80c; ½ lb. \$1.40; 1 lb. \$2.50; 2 lbs. \$4.75; 5 lbs. \$11.00; 10 lbs. \$20.00.

NATIONAL PICKLE 50 days. A black spined variety much used by pickle packers for the production of small pickles. Vines are small but heavy producers. Fruits are straight, 6½ by 2½ inches, full ended and very symmetrical.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

SNOW'S PICKLING 52 days. Fruits are dark green, 5 inches long, symmetrical in shape, 2½ inches thick near stem end, tapers slightly. Much used for small bottle pickles. Black spined and blunt ended.

Prices Prepaid: Oz. 15c; ¼ lb. 40c; ½ lb. 70c; 1 lb. \$1.25; 2 lbs. \$2.40; 5 lbs. \$5.50; 10 lbs. \$10.00.

STAYS GREEN—LONG STRAIN 55 days. A strictly modern strain of that old southern favorite. We have bred for better length and color. A rich, deep green, very symmetrical and square ended. 8 to 10 inches long by 2¾ inches thick.

Prices Prepaid: Oz. 25c; ¼ lb. 80c; ½ lb. \$1.40; 1 lb. \$2.50; 2 lbs. \$4.75; 5 lbs. \$11.00; 10 lbs. \$20.00.

*The
Straight
Eight
Fine for
Early
Market*

STRAIGHT EIGHT 58 days. An excellent new variety that has become a favorite with many shippers. Fruits are very symmetrical, almost cylindrical, with well rounded ends. A fine dark green color, 8 inches long by 2 inches in diameter.

Prices Prepaid: Oz. 25c; ¼ lb. 80c; ½ lb. \$1.50; 1 lb. \$2.75; 2 lbs. \$5.25; 5 lbs. \$12.00; 10 lbs. \$22.00.

WEST INDIA GHERKIN or BURR 60 days. Distinct from other varieties and grown only for pickles. Fruits are small, oval, 2 inches long by 1¼ inches in diameter and covered with spines. Light green in color. Seeds very small.

Prices Prepaid: Oz. 20c; ¼ lb. 65c; ½ lb. \$1.20; 1 lb. \$2.00; 2 lbs. \$3.75; 5 lbs. \$8.75; 10 lbs. \$16.00.

Onions

**SWEET
SPANISH or
VALENCIA**

*Buy these
Early
the crop
was short
this year*

The entire Onion Seed crop this year is the shortest I have ever seen. I advise placing your order early.

The Rocky Ford district is one of the important onion producing sections of the U. S. Because of the importance of onions to this section, great care and attention is given to the strain of seed used. Fully 80% of the seed planted here is from this strain. Onions from our seed will average $2\frac{1}{2}$ to 3 inches in diameter, with many measuring 4 to 5 inches. Usual expectations here are for 1000 to 1500 crates to the acre. Our crates weigh 42 to 45 lbs. each. We plant in drills and use from 2 to $2\frac{1}{2}$ pounds of seed per acre.

Our seed bulbs are selected for uniform size, color and keeping ability. Many of the onions raised here go into storage in September and are not taken out until April, they must be good keepers to hold that long.

YELLOW SWEET SPANISH (Utah or Winegar Strain) The bulbs are large and globe shaped, having 4 or 5 heavy golden-brown outside skins. The flesh is white and of a mild pleasant flavor. The superiority of our strain is its deep color, excellent keeping ability, thick skin, uniformity and trueness to type. Top growth is very vigorous and more resistant to thrip than most other strains.

Prices Prepaid: Oz. \$1.00; $\frac{1}{4}$ lb. \$3.50; 1 lb. \$12.00; 5 lbs. \$55.00; 10 lbs. \$105.00.

WHITE SWEET SPANISH IMPROVED This is the finest of the white strains. It will produce very large, globe shaped, white onions of very mild flavor. While a fairly heavy yielder and keeper it will not compare with the Yellow variety. The higher market price received for the White onions will, in most cases, offset the difference in yield.

Prices Prepaid: Oz. \$1.00; $\frac{1}{4}$ lb. \$3.50; 1 lb. \$12.00; 5 lbs. \$55.00; 10 lbs. \$105.00.

Squash

A new addition

COCOZELLE 65 days. The most popular Italian variety with southern shippers and market growers. Very prolific bush plants. Fruits weigh 4 pounds at maturity, 15 to 20 inches long and 4½ inches through the thickest part, cylindrical, straight and smooth. Color dark green with faint light green stripes changing to yellow. Flesh firm and greenish white. Marketed when fruits are very young.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

EARLY SUMMER CROOKNECK (Golden) 50 days. Very early and prolific. Southern planters will find our stock very uniform as to size and color. Fruits are well warted and become 10 inches long and 3½ inches through the bowl at maturity. Necks are well curved, skin a bright orange-yellow. Bush type.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

EARLY WHITE BUSH SCALLOP (Patty Pan) 53 days. The standard Summer Scalloped squash for shippers and market growers. Vines are bush type, mature fruits 3 inches thick, 8 inches in diameter, round, flattened, smooth with scalloped edges, weight 2½ pounds. Color when young is bright green, changing to pure white when mature. Our stock is very uniform and you will like it.

Prices Prepaid: Oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 90c; 2 lbs. \$1.70; 5 lbs. \$4.00; 10 lbs. \$7.50.

GIANT SUMMER STRAIGHTNECK 55 days. A selection from the Mammoth Crookneck. The neck is straight and packs to better advantage than the crookneck, in shipping. Fruits thick, neck straight, heavily warted, orange-yellow colored. Flesh is thick and light yellow. Bush type.

Prices Prepaid: Oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 90c; 2 lbs. \$1.70; 5 lbs. \$4.00; 10 lbs. \$7.50.

PROLIFIC WHITE BUSH (Wood's) 52 days. One of the earliest summer squashes. When young the fruits are green tinted and very desirable. Weight 2 to 2½ pounds; bulge at both stem and blossom ends; smooth and only slightly scalloped. Fine quality and extra heavy yielders.

Prices Prepaid: Oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 90c; 2 lbs. \$1.70; 5 lbs. \$4.00; 10 lbs. \$7.50.

TABLE QUEEN (Acorn or Des Moines) 58 days. A small individual sized squash very desirable for market trade. Vines trailing; fruits acorn shaped, ribbed, smooth, thin-shelled, dark green. Flesh light yellow, bakes dry and sweet.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

ZUCCHINI—BLACK 62 days. We recommend this popular Italian variety to our trade as being exceptionally true to type for this sort. Plant is bush in growth. Fruits at maturity are 12 to 15 inches long, 5 inches in diameter, cylindrical, long, smooth, dark green-black. Flesh greenish-white and of good flavor.

Prices Prepaid: Oz. 10c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00; 2 lbs. \$1.90; 5 lbs. \$4.50; 10 lbs. \$8.50.

Important Ordering Suggestions

By carefully following these suggestions many mistakes may be avoided . . .

and we can render the most prompt service

ORDER BLANK AND ENVELOPE are enclosed for your convenience. Please fill out the blank spaces at the top, printing your name and address and giving full shipping instructions, especially your **EXPRESS OFFICE** if different from your Postoffice. Keep a copy of your order.

TRANSPORTATION is paid by us on all seeds quoted herein to any point in the United States. For **FOREIGN SHIPMENTS** add 10¢ per pound to catalog prices.

TERMS OF SALE are Cash With Order. Postage stamps may be sent for amounts under \$1.00, otherwise send Bank Draft or Money Order. Cash should be well wrapped and sent Registered Mail. We will ship C.O.D. when 25% of the purchase price accompanies the order.

ALL PRICES subject to change without notice and stocks being unsold.

SALES TAX. Some states have adopted a Sales Tax, which does not as yet affect seed shipment from one state to another. In the future, should there be a tax imposed on interstate shipments the tax will be added to the amount of the order. Colorado residents should add 2% to their order to cover Sales Tax.

LARGE ORDERS. Institutions, Commercial Growers and others wishing larger quantities than we quote in this catalog, are requested to send us a list of their requirements. We will be glad to quote our lowest prices.

OUR GUARANTEE. We use every effort to have our seeds pure and reliable, but conditions often arise preventing the best of seeds from giving perfect satisfaction. Some may be sown too shallow or too deep, in ground too wet or too dry. Insects above or below the ground may attack them. Cold, wet ground will cause the seeds to decay. For this reason it is impossible for us to guarantee seeds under all conditions. Therefore we, in common with all responsible seedsmen, sell our seeds subject to the following disclaimer adopted by the American Seed Trade Association. **H. D. GARWOOD SEED COMPANY** gives no warranty, express or implied, as to description (including kind, variety, and name), quality, productiveness or any other matter of any seeds they send out and will be in no way responsible for the crop. When mentioned, purity and germination tests are for information only and are not guaranteed.

WE ARE MEMBERS of "The American Seed Trade Association" and Associate Members of the "Western Growers Protective Association" and other State associations.
